

Watch an Emmi® Program!

At New York Presbyterian Hospital, we consider you to be a vital part of our health care team. That's why our doctors and staff want you to view an Emmi program prior to your medical or surgical procedure or when you need to better manage a health condition. Emmi is a web-based educational program that's easy to use. And you can take notes on topics you would like to discuss with your doctor. The programs typically take about 20 minutes and can be viewed as many times as you like. In fact, we encourage you to share Emmi with family or friends who you consider part of your health team.

How do you get started?

It's easy. You can use any computer with Internet access; home, family, friend, work or library. Then connect to the Internet and type: <http://www.nyp.org/emmi> into the address bar at the top of the page.

Which program should you view?

Your healthcare provider has indicated below the specialty and program that's right for you.

Select the specialty and you will be redirected to a page where you will register to view your Emmi program.

Anesthesia

- Anesthesia (Adult)
- Anesthesia (Pediatric)
- Pain Relief for Childbirth

Bariatrics

- Bariatric Informed Decision Making
- Duodenal Switch
- Gastric Bypass
- Lap Band Surgery

Breast Care

- Breast Biopsy for Diagnosis
- Breast Reconstruction
- Lumpectomy for Malignancy
- Mastectomy

Cardiac Services: Pediatric and Adult

- Angiogram with possible Angioplasty
- Cardiac Pacemaker
- Coronary Artery Disease
- Coronary Bypass Surgery
- Heart Failure
- Hypertension
- Heart Valve Surgery
- ICD (Implantable Cardioverter and Defibrillator)
- Pediatric Cardiac Catheter Ablation
- Pediatric Cardiac Catheterization (for ASD and PDA)
- Pediatric Cardiac Catheterization (Stenosis)

- Colonoscopy
- ERCP
- Pediatric Colonoscopy
- Pediatric Upper GI Endoscopy
- Upper GI Endoscopy

General Surgery: Pediatric and Adult

- Cholecystectomy, Laparoscopic
- Colectomy
- Incisional Hernia
- Inguinal Hernia
- Parathyroidectomy for HPT
- Pediatric Inguinal Hernia or Hydrocele Repair (Male)
- Subclavian Venous Access Port
- Thyroidectomy

Health Condition Management

- Acute Lower Back Pain
- Asthma
- Chronic Obstructive Pulmonary Disease
- Coronary Artery Disease
- Depression
- Diabetes
- Heart Failure
- Hypertension

Nephrology

- Diabetes
- Subclavian Venous Access Port

Neurosurgery

- Anterior Cervical Discectomy and Fusion
- Lumbar Laminectomy
- Lumbar Microdiscectomy
- Lumbar Interbody Fusion, Posterior or Transforaminal

Obstetrics and Gynecology

- Abdominal Myomectomy
- Abdominal Hysterectomy
- Childbirth
- C-Section
- Hysteroscopy (Diagnostic)
- Laparoscopy
- LEEP
- Pain Relief for Childbirth
- Tubal Ligation Post Partum
- Tubal Ligation Interval
- Vaginal Birth after C-Section (VBAC)
- Vaginal Hysterectomy/LAVH

Ophthalmology

- Cataract Surgery
- Lasik
- Wavefront Lasik

Oral Surgery

- 3rd Molar Extraction
- Bone Graft/Sinus Lift
- Dental Implants

Orthopaedic

- ACL Reconstruction
- Acute Lower Back Pain
- Anterior Cervical Discectomy and Fusion
- Bunionectomy with possible Osteotomy
- Carpal Tunnel Release
- Knee Arthroscopy
- Lumbar Interbody Fusion, Posterior or Transforaminal
- Lumbar Laminectomy
- Lumbar Microdiscectomy
- Shoulder Arthroscopy
- Total Hip Replacement
- Total Knee Replacement
- Spinal Fusion for Adolescent Idiopathic Scoliosis

Pediatric Surgery

- Hypospadias Repair
- Myringotomy
- Orchiopexy
- Pediatric Cardiac Catheter Ablation
- Pediatric Cardiac Catheterization (for ASD and PDA)
- Pediatric Cardiac Catheterization (Stenosis)
- Pediatric Colonoscopy
- Pediatric Inguinal Hernia or Hydrocele Repair (Male)
- Pediatric Upper GI Endoscopy
- Spinal Fusion for Adolescent Idiopathic Scoliosis
- Tonsillectomy with possible Adenoidectomy

Plastic and Reconstructive Surgery

- Abdominoplasty
- Breast Augmentation with Saline-Filled Implants
- Breast Augmentation with Silicone Gel-Filled Implants
- Breast Reconstruction
- Breast Reduction
- Facelift
- Liposuction

Psychiatry

- Depression

Pulmonary

- Asthma
- Bronchoscopy
- Chronic Obstructive Pulmonary Disease

Urology

- Hypospadias Repair
- Pediatric Inguinal Hernia or Hydrocele Repair (Male)
- Orchiopexy
- Radical Prostatectomy
- Transurethral Resection or Ablation of the Prostate
- Urethral Sling
- Vasectomy

Vascular

- Subclavian Venous Access Port
