Concrete Pours Begin

We are continuing to work on excavation and foundations but the foundation work has entered a new phase. Drilling is completed and we have begun the footing installation and one of the first concrete pours can be seen in the photo above.

Upcoming Work

Current construction work hours are Monday through Friday, from 7:00 a.m. until 6:00 p.m. To maintain our schedule, work will be

done between 9 a.m. and 5 p.m. on a number of upcoming Saturdays. However, there will be no trucking on Saturdays. Some equipment deliveries may occur on off hours and notices of both Saturday work and early deliveries will continue to be sent in advance.

The construction schedule for the next four weeks, **April 17-May 12**, includes continued excavation and foundation work.
