

The Executive Registry Network

*... Serves Its Membership In A
Personalized Manner.*

Services include:

- 24-HOUR ACCESS TO MEDICAL ASSISTANCE
... worldwide.
- ACCESS TO GLOBAL
... aeromedical evacuation.
- ASSISTANCE WITH HOSPITAL SERVICES
... including routine and emergency inpatient admission, outpatient care, second opinion and follow-up care.
- ASSISTANCE WITH PRE-DEPARTURE SERVICES
... such as arranging for medical consultations, travel inoculations and compulsory immunizations.
- ASSISTANCE WITH RELOCATION HEALTH CARE PLANNING
... for executives and their families who relocate.

The Executive Registry Network

*... Arranges Medical Care
Through Its Centers Of Excellence.*

The Executive Registry offers to facilitate patient-to-physician contact and physician-to-physician contact for consultation and second opinion.

With a membership of over 10,000 executives, The Executive Registry services over 150 corporations around the world and has grown into a comprehensive network spanning more than 40 countries facilitating local to global access.

A gold membership card provides pertinent information necessary to contact The Executive Registry 24-hour emergency response team. In the event of an illness or injury, members simply access an international collect call number while traveling abroad or their local number for access to quality global medical care.

The Executive Registry Network

*... Selects Health Care Providers For
Their Outstanding Patient Care.*

Case Histories:

An Executive Registry member had severe chest pain while en route to Hong Kong. He was monitored in flight by Executive Registry staff in coordination with the airline and his company.

Arrangements for emergency care were made by The Executive Registry network hospital in Hong Kong. Once the patient was diagnosed and stabilized, he was transferred home.

An executive and her family relocated abroad. She wanted to plan for routine care in her new city of residence. The Executive Registry arranged appointments with specialists in Internal Medicine, Gynecology and Pediatrics so that she could be assured that her family would receive quality care.

The Executive Registry Network

*... Facilitates Access to Quality
Medical Care.*

The Executive Registry is the premier medical access service for executives facilitating personalized medical care worldwide.

The Executive Registry's network consists of renowned academic medical centers in the United States, as well as outstanding hospitals and physicians in the international medical community. The Executive Registry staff is available to assist you with medical emergencies, evacuation and specialist referral 24 hours a day, 365 days a year.

The Executive Registry can arrange routine and emergency care at our network hospitals and facilitate with referrals beyond our network, including the coordination of executive services.
