

JINESH N. SHAH, M.D.

Peer-Reviewed Journal Publications:

Parhar PK, Duckworth T, Shah P, DeWyngaert K, Narayana A, Formenti SC, **Shah JN**. Decreasing temporal lobe dose with five-field intensity modulated radiotherapy for treatment of pituitary macroadenomas. *International Journal of Radiation Oncology * Biology * Physics* 2009; in press.

George I, **Shah JN**, Bacchetta M, Stewart A. Stentless bioprosthesis in a valved conduit: implications for pulmonary resection. *Annals of Thoracic Surgery* 2009;in press.

Shah JN, Shao GS, Hei TK, Zhao YZ. Methylation screening of the TGFBI promoter in human lung and prostate cancer by methylation-specific PCR. *BMC Cancer* 2008;8(1):284.

Shah JN, Liu C, Zhao Y, Formenti SC, Ibrahim S. *Betaig-h3* tumor suppressor gene expression is absent in human low-grade follicular lymphoma but not in high-grade follicular lymphoma. *International Journal of Radiation Oncology * Biology * Physics* 2008;72(1),Supp S:S472.

Duckworth T, Parhar P, Shah P, DeWyngaert K, Narayana A, Formenti SC, Shah JN. Decreased temporal lobe dose with 5-Field IMRT for pituitary macroadenoma treatment. *International Journal of Radiation Oncology * Biology * Physics* 2008;72(1),Supp S:S236.

Bansal N, Cohen C, **Shah JN**, Schiff PB, Herzog TJ, Wright JD. Early metastatic spread after a complete response in locally advanced vulvar cancer treated with neoadjuvant chemoradiation. *Journal of Reproductive Medicine* 2008;53(9):700-702.

Gondi V, Deutsch I, Mansukhani M, O'Toole KM, **Shah JN**, Schiff PB, Katz AE, Benson MC, Goluboff ET, Ennis RD. Intermediate-risk localized prostate cancer in the PSA era: radiotherapeutic alternatives. *Urology* 2007;69(3):541-546.

Shah JN, Trichter F, Bhatia S, Ennis RD. Inadequate coverage of iliac nodes with conventional, non-CT planning of endometrial cancer RT. *International Journal of Radiation Oncology * Biology * Physics* 2006;66(3),Supp S:S401-S402.

Shah JN, Wu C-S, Katz AE, Laguna JL, Benson MC, Ennis RD. Improved biochemical control and clinical disease-free survival with intraoperative versus preoperative preplanning for transperineal interstitial permanent prostate brachytherapy. *The Cancer Journal* 2006;12(4):289-297.

Shah JN, Ennis RD. Rectal toxicity profile after transperineal interstitial permanent prostate brachytherapy: use of a comprehensive toxicity scoring system and identification of rectal dosimetric toxicity predictors. *International Journal of Radiation Oncology * Biology * Physics* 2006;64(3):817-824.

Shah JN, Ennis RD. Improved understanding of subtle rectal toxicity after prostate brachytherapy: results with a comprehensive toxicity scoring system and identification of rectal dosimetric toxicity predictors. *International Journal of Radiation Oncology * Biology * Physics* 2005;63(2),Supp 1:S316-S317.

Lazar RM, Fitzsimmons B-F, Marshall RS, Berman MF, Bustillo MA, Young WL, Mohr JP, **Shah J**, Robinson JV. Reemergence of stroke deficits with midazolam challenge. *Stroke* 2002;33:283-285.

Shah J. Should older patients with nonvalvular atrial fibrillation receive adjusted-dose warfarin for ischemic stroke prevention? *P&S Medical Review* 2001;7(2):15-20.

Lazar RM, Marshall RS, Young WL, **Shah J**, Constantine RC, Robinson J. Experimental reinduction of former stroke deficits with IV midazolam. *Neurology* 2000;54,Suppl 3:A42.

Laeng B, **Shah J**, Kosslyn S. Identifying objects in conventional and contorted poses: contributions of hemisphere-specific mechanisms. *Cognition* 1999;70(1):53-85.

Shah J. A socialization-mediated self-defeating model for evaluation of black-white performance differences on intelligence test batteries. *Journal of Undergraduate Sciences* 1996;3(2):89-101.

Book Chapters:

Shah JN. Lung cancer. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Shah JN. Management of adult central nervous system tumors. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Vance W, **Shah JN**. Cutaneous T-cell lymphoma. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Ballas L, **Shah JN**. Fundamentals of patient management. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Vance W, **Shah JN**. Hodgkin's disease. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Vance W, **Shah JN**. Multiple myeloma and plasmacytoma. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Vance W, **Shah JN**. Non-Hodgkin's lymphoma. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Ballas L, **Shah JN**. Palliation. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.

Ballas L, **Shah JN**. Pediatric lymphoma. In Chao KSC, Perez CA, Brady LW (Eds.), *Radiation oncology: management decisions* (3rd edition). Philadelphia, PA: Lippincott Williams & Wilkins, 2010.
